General Conference Information

Objective

The objective of the annual conference on economic analysis is to promote the exchange of ideas among economists conducting quantitative analysis of global economic issues. The conference will commence and conclude with plenary sessions featuring distinguished intellectual leaders in their respective fields. Their presentations are designed to introduce participants to new topics as well as provide fresh insights into familiar ones. The content of these sessions reflects the overall conference themes:

“New Challenges for Global Trade and Sustainable Development”

- Measurement and impact analysis of non-tariff measures and trade facilitation
- Trade, environment, natural resources and sustainable development
- Poverty, inequality and development towards the millennium development goals
- Analysis of multilateral and bilateral trade agreements in a globalizing world

The conference will also feature specially organized and contributed paper sessions. The organized sessions have been developed by members of the GTAP Network to highlight a specific research area. The contributed paper sessions were selected through a peer review process and subsequently grouped to reflect the varied themes being addressed by members of the GTAP Network. Papers from each session may be accessed through the conference homepage on the GTAP website. <http://www.gtap.agecon.purdue.edu/events/conferences/2012/> ISSN 2160-2115 (online)

Special Recognition

The Center for Global Trade Analysis would like to recognize the following contributing to the success of this conference.

Conference Co-Chairs

Thomas Hertel, GTAP
Patrick Low, WTO
Anders Agero, ITC
Guillermo Valles, UNCTAD

Conference Committee

Christoph Böhlinger
Lionel Fontagné
Patrick Jomini
Stephen Karingi
Bob Koopman

and wish you an enjoyable and productive conference!*

Organizing Institutions

Center for Global Trade Analysis, Purdue University

The Global Trade Analysis Project (GTAP) is a global network of researchers and policy makers conducting quantitative analysis of international policy issues within an economy-wide framework. GTAP is coordinated by the Center for Global Trade Analysis which is housed in the Department of Agricultural Economics at Purdue University. The Center for

Global Trade Analysis' mission is to provide leadership in economic policy analysis through better data, fostering collaboration, and research.

The centerpiece of Global Trade Analysis Project is the GTAP Data Base, a fully documented and publicly available, analytical data base for the global economy which contains detailed country data, linked through bilateral trade, transportation and protection. Accompanying this data base is a set of GTAP-based models used and developed by network members. The GTAP Data Base and analytical framework are used by thousands of researchers around the world. Originally, the majority of the research was related to international trade policy issues. Today, GTAP is still the most widely used tool for trade policy, but its use has expanded into poverty, international migration, foreign investment, climate change, environment, energy, and biofuel policies. GTAP has become a common "language" for many of those conducting analysis of global policy issues with GTAP-based results becoming increasingly influential in decision making around the world in trade, climate change, energy and the environment.

WORLD TRADE
ORGANIZATION

World Trade Organization

The World Trade Organization is the global forum for ensuring a rule-based sustainable approach to global trade.

The bulk of the WTO's current work comes from the 1986-94 Uruguay Round negotiations as well as earlier negotiations under the General Agreement on Tariffs and Trade (GATT). The WTO is the host to presently ongoing multi-lateral trade negotiations, under the "Doha Development Agenda" launched in 2001.

WTO is recognized for its contribution to liberalizing global trade in a multi-lateral framework, but in some circumstances its rules support maintaining trade barriers - for example to protect health. The WTO agreements, negotiated and signed by the bulk of the world's trading nations, provide the legal ground for international commerce. They are contracts, binding governments to keep their trade policies within agreed rules. The goal is to help producers of goods and services, exporters, and importers conduct their business, while allowing governments to meet social and environmental objectives.

The WTO's overriding purpose is to help trade flow as freely as possible. That partly means removing obstacles; it also means ensuring that individuals, companies and governments know what the trade rules are around the world, and giving them the confidence that there will be no sudden changes or reversals of trade policy. In other words, the rules have to be "transparent" and predictable.

The WTO began life on 1 January 1995, but its trading system is half a century older. Since 1948, the General Agreement on Tariffs and Trade (GATT) had provided the rules for the system. The second WTO ministerial meeting, held in Geneva in May 1998, included a celebration of the 50th anniversary of the system. Over the years GATT evolved through several rounds of negotiations.

The previous GATT round, was the Uruguay Round which lasted from 1986 to 1994 and led to the WTO's creation. Whereas GATT had mainly dealt with trade in goods, the WTO and its agreements now cover trade in services, and in traded inventions, creations and designs (intellectual property).

Organizing Institutions

International
Trade
Centre

International Trade Centre

The International Trade Centre (ITC) is a joint agency of the World Trade Organization and the United Nations. ITC's goal is to assist developing countries and countries in transition achieve sustainable development through exports. International trade is an important engine of development and poverty reduction, contributing to economic growth, job creation and entrepreneurial opportunities. Reducing poverty by boosting trade is a key tenet of ITC's trade related technical assistance.

ITC concentrates on strengthening the 'soft' infrastructure related to international trade and on delivering integrated programme solutions aiming at "Export Impact for Good". ITC works with policy makers, trade support institutions and enterprises in beneficiary countries. ITC's services are delivered through five complementary areas of technical expertise: export strategy, exporter competitiveness, strengthening trade support institutions, trade intelligence and business and trade policy. ITC has a strong focus on ensuring that the private sector voice on trade policies is articulated effectively. ITC has a range of research and advisory programs including programs on Market Access, Non-Tariff Measures, Trade and Climate Change, Voluntary Sustainability Standards, Women and Trade, and Trade and Poverty Alleviation.

UNITED NATIONS
UNCTAD

United Nations Conference on Trade and Development

The United Nations Conference on Trade and Development (UNCTAD) focuses on the linkages between international trade policies and social and economic development across the developing world. Established in 1964, UNCTAD has progressively evolved into an authoritative knowledge-based institution whose work aims to help shape current policy debates and thinking on trade, investment and development, with a particular focus on ensuring that domestic policies and international action are mutually supportive in bringing about sustainable development.

UNCTAD functions as a forum for intergovernmental deliberations, supported by discussions with experts and exchanges of experience; it also undertakes research, policy analysis and data collection for the government representatives, other international/regional organizations, academia and experts; and provides technical assistance tailored to the specific requirements of developing countries, with special attention to the needs of the least developed countries and of economies in transition.

The substantive divisions of UNCTAD focus on Africa, LDCs, international support measures, international trade policy formulation and advice, investment and enterprise development, commodity dependence, export diversification, globalization and technology transfer and adaptation.

Supporting Institutions

THE GRADUATE INSTITUTE | GENEVA
CENTRE FOR TRADE
AND ECONOMIC INTEGRATION

The Graduate Institute Geneva, Centre for Trade and Economic Integration

CTEI is the Graduate Institute's Centre of Excellence for research on international trade. The Centre brings together the research activities of eminent professors of economics, law and political science in the area of trade, economic integration and globalization. The Centre provides a forum for discussion and dialogue between the global research community, including the Institute's student body and research centres in the developing world, and the international business community, as well as international organisations and NGOs. The centre organises events, publishes working papers and hosts visiting scholars. A core goal of the Centre is to foster genuine, interdisciplinary research and to work across discipline to foster solutions that address the major societal issues of today.

CAMBRIDGE
UNIVERSITY PRESS

Cambridge University Press

Cambridge University Press is the publishing business of the University of Cambridge. Dedicated to excellence, our purpose is to further the University's objective of advancing knowledge, education, learning, and research.

Our peer-reviewed publishing lists comprises over 45,000 titles covering academic research, professional development, over 300 research journals, school-level education, English language teaching and bible publishing. This list is growing at a rate of nearly 4,000 ISBNs every year and spans subjects from aesthetics through to zoology, with authors ranging from Shakespeare to English language teaching author, Ray Murphy.

A pioneer in our field, we are committed to supporting innovation in learning and teaching. We publish without boundaries, ensuring our resources are accessible across the globe, in print, digital and online formats.

We take pride in supporting community programmes across the globe. Staff are encouraged to offer practical help, advice and funding to nurture vital charitable, educational and voluntary partnerships.

Playing a leading role in today's global market place, we have over 50 offices around the globe, and distribute our products to nearly every country in the world. We publish 45,000 authors based in over 100 different countries.

Opening Ceremony Speakers

Wednesday, June 27 – 16:30-17:15

Mr. Pascal Lamy

Director-General
World Trade Organization

Mr. Pascal Lamy is Director-General of the World Trade Organization (WTO) since September 2005.

Mr. Lamy holds degrees from the Paris based Ecole des Hautes Etudes Commerciales (HEC), from the Institut d'Etudes Politiques (IEP) and from the Ecole Nationale d'Administration (ENA). He began his career in the French civil service at the Inspection Générale des finances and at the Treasury. He then became an advisor to the Finance Minister Jacques Delors, and subsequently to Prime Minister Pierre Mauroy.

In Brussels from 1985 to 1994, Pascal Lamy was Chief of staff for the President of the European Commission, Jacques Delors, and his representative as Sherpa in the G7.

In November 1994, he joined the team in charge of rescuing the French bank, Credit Lyonnais, and later became CEO of the bank until its privatisation in 1999.

Between 1999 and 2004, Pascal Lamy was Commissioner for Trade at the European Commission under Romano Prodi.

After his tenure in Brussels, Pascal Lamy spent a short sabbatical period as President of "Notre Europe", a think tank working on European integration, as associate Professor at the l'Institut d'études politiques in Paris and as advisor to Poul Nyrup Rasmussen (President of the European Socialist Party).

Mr. Lamy was reappointed Director-General of the World Trade Organization by its Members for a second mandate in May 2009

- The Europe we Want with Jean Pisani-Ferry (Policy Network) (L'Europe de nos volontés (Plon, 2002))
- Monde-Europe (Dunod, 1993) (in French)

Distinctions

- Knight Commander's Cross (Badge and star of the order of Merit of the Federal Republic of Germany (1991)
- Commander, order of merit of Luxembourg (1995)
- Officier de la Légion d'Honneur (1999)
- Officer, Oder of merit of Gabon (2000)
- Médaille de la Fraternité du Vietnam (2007)

Opening Ceremony Speakers

Wednesday, June 27 – 16:30-17:15

Dr. Supachai Panitchpakdi

Secretary-General

United Nations Conference on Trade and Development

Supachai Panitchpakdi began his second four-year term as Secretary-General of UNCTAD on 1 September 2009, following his unanimous confirmation by the United Nations General Assembly.

Born in Bangkok on 30 May 1946, Dr. Supachai was educated there at St. Gabriel's College and Triam Udom School. He received his Master's Degree in Econometrics, Development Planning, and his PhD in Economic Planning and Development, at the Netherlands School of Economics (now known as Erasmus University) in Rotterdam.

In 1973, Dr. Supachai completed his doctoral dissertation on Human Resource Planning and Development under the supervision of Professor Jan Tinbergen, the first Nobel laureate in economics.

Dr. Supachai began his professional career at the Bank of Thailand in 1974, working in the Research Department, the International Finance Division and the Financial Institutions Supervision Department.

In 1986, Dr. Supachai was elected to the Thai Parliament and appointed Deputy Minister of Finance.

In 1988, he was appointed Director and Advisor, and subsequently President, of the Thai Military Bank.

In 1992, Dr. Supachai was appointed Senator, and that same year he became Deputy Prime Minister, entrusted with oversight of the country's economic and trade policymaking. In this role he was actively involved in international trade policy, and represented Thailand at the signing ceremony in Marrakech of the Uruguay Round Agreement in 1994. He was also active in shaping regional agreements, including Asia-Pacific Economic Cooperation (APEC), the Association of Southeast Asian Nations (ASEAN) and the Asia-Europe Meeting (ASEM).

In 2001, he was appointed Visiting Professor at the International Institute for Management Development in Lausanne. He has published a number of books, including *Globalization and Trade in the New Millennium* (2001) and *China and WTO: Changing China, Changing World Trade* (2002, co-authored with Mark Clifford). From September 2002 to August 2005, Dr. Supachai served as Director-General of the World Trade Organization.

Opening Ceremony Speakers

Wednesday, June 27 – 16:30-17:15

Ms. Patricia R. Francis

Executive Director
International Trade Centre

Patricia R. Francis, an award-winning leader and business facilitator, joined the International Trade Centre as Executive Director in June 2006.

During her tenure at ITC, the annual project implementation has moved from US\$ 25.3 million to an expected US\$44 million in 2011 with larger, multi-year programmes now representing more than 50% of the portfolio.

She has also led a change management process which has established a strategic planning and reporting cycle, mainstreamed MDG programmes for gender, environment and poverty and introduced results based management and accountability principles. A new brand identity has aligned ITC values to its profile.

Access to information for Developing Countries has been enhanced through free on-line Trade Analysis Tools, the publications programme and Trade Forum magazine. All supported by a new website.

Clients needs are reviewed annually through ITC client survey, and partnerships have been strengthened through active participation in the WTO's Aid for Trade and One UN initiatives which seek to achieve greater coherence among international and trade related organizations. ITC has also conducted a major study of programme support functions to streamline processes, and is reviewing financial administration systems to ensure greater efficiencies and transparency in its operations.

Ms. Francis came to ITC from Jamaica Trade and Invest, where she served as President for ten years. She was a member of Jamaica's Cabinet Committee for Development and during her tenure Jamaica attracted more than US\$ 5 billion in foreign direct investment. She served twice as President of the World Association of Investment Promotion Agencies and the China-Caribbean Business Council.

She is currently on the advisory boards of IESE graduate business school and a member of the Eminent Persons Group for the Commonwealth, a group created to examine options for reform of the Commonwealth's many institutions.

Distinguished Plenary Session: “Trade, Development and Policy Making”

Wednesday, June 27 – 17:15-18:00

Jean-Louis Arcand, “*Development and the Effectiveness of Social Programmes*”

Professor of International Economics and Development Studies

The Graduate Institute, Geneva

Jean-Louis Arcand has been Professor of International Economics and Development Studies at the Graduate Institute since 2008. He has also been recently appointed Chair of Development Studies. Jean-Louis Arcand is associate editor of the *Journal of African Economies* and the *Revue d'Economie du Développement*, co-editor of the *European Journal of Development Research*, and Founding Fellow of the European Union Development Network (EUDN). He was assistant and then Associate Professor at the University of Montréal, and Professor at the Centre d'Etudes et de Recherches en Développement International (CERDI). Professor Arcand holds a PhD in Economics from the Massachusetts Institute of Technology (MIT), Cambridge, MA, USA. His research focuses on the microeconomics of development, particularly in West Africa and the Maghreb, with a current focus on impact evaluation of social programmes. He has been a consultant to the World Bank, the FAO, the UNDP, the Gates Foundation and several national governments. Jean-Louis Arcand is currently leading impact evaluations in Angola, Burkina Faso, Burundi, The Cameroon, The Gambia, Mali, Morocco, and Senegal, with the topics being investigated ranging from peer mentoring to fight HIV-AIDS to capacity-building in rural producer organisations to foster food security.

Friday, June 29 – 16:00-17:30

Richard Baldwin, “*Global Trade Governance in the 21st century*”

Professor of International Economics
The Graduate Institute, Geneva

Richard Edward Baldwin is Professor of International Economics at the Graduate Institute, Geneva since 1991, Policy Director of CEPR since 2006, and Editor-in-Chief of Vox since he founded it in June 2007. He was Co-managing Editor of the journal *Economic Policy* from 2000 to 2005, and Programme Director of CEPR’s International Trade programme from 1991 to 2001. Before that he was a Senior Staff Economist for the President's Council of Economic Advisors in the Bush Administration (1990-1991), on leave from Columbia University Business School where he was Associate Professor. He did his PhD in economics at MIT with Paul Krugman. He was visiting professor at MIT in 2002/03 and has taught at universities in Italy, Germany and Norway. He has also worked as consultant for the numerous governments, the European Commission, OECD, World Bank, EFTA, and USAID. The author of numerous books and articles, his research interests include international trade, globalisation, regionalism, and European integration. He is a CEPR Research Fellow.

Robert N. Stavins, “*Green Growth, Market Failures, and Technological Change*”

Albert Pratt Professor of Business and Government
Harvard University

Robert N. Stavins is the Albert Pratt Professor of Business and Government at the Harvard Kennedy School, Director of the Harvard Environmental Economics Program, Director of Graduate Studies for the Doctoral Programs in Public Policy and Political Economy & Government, Co-Chair of the Harvard Business School-Kennedy School Joint Degree Programs, and Director of the Harvard Project on Climate Agreements. He is a University Fellow of Resources for the Future, a Research Associate of the National Bureau of Economic Research, a member of the Board of Directors of Resources for the Future, the Scientific Advisory Board of the Fondazione Eni Enrico Mattei, and numerous editorial boards, and Co-Editor of the *Review of Environmental Economics and Policy*, and an editor of the *Journal of Wine Economics*. He was elected a Fellow of the Association of Environmental and Resource Economists in 2009. He has been a member of the Board of Directors of the Association of Environmental and Resource Economists, the Chairman of the Environmental Economics Advisory Committee of the U.S. Environmental Protection Agency, a Lead Author of the Second and Third Assessment Reports and now a Coordinating Leading Author of the Fifth Assessment Report of the Intergovernmental Panel on Climate Change. Professor Stavins' research has focused on diverse areas of environmental economics and policy, and his research has appeared in the over a hundred journal articles, and more than a dozen books. Professor Stavins works closely with public officials on matters of national and international environmental policy, and has also been a consultant to numerous private foundations and firms. He holds a B.A. in philosophy from Northwestern University, an M.S. in agricultural economics from Cornell, and a Ph.D. in economics from Harvard.

2013 Conference Preview

16th Annual Conference on Global Economic Analysis

“New Challenges for Global Trade in a Rapidly Changing World”

Shanghai Institute of Foreign Trade
Shanghai, China
June 12-14, 2013

Objective

The objective of the annual conference on economic analysis is to promote the exchange of ideas among economists conducting quantitative analysis of global economic issues. Particular emphasis will be placed on applied general equilibrium methods, data, and application. Related theoretical and applied work is also welcome. This conference will focus around:

- Measurement and impact analysis of:
 - changing world monetary system on global trade
 - demographic transition and population aging on global trade and the world economy
- Trade, environment, natural resources and sustainable development
- The impact of internet and new innovation on global trade
- Interaction between global trade and poverty, income distribution, inequality and development

Abstract / Session Proposal Submission

Abstracts and organized session proposals will be accepted on the GTAP website from early November 2012 through January 15, 2013. All submissions will go through a peer review process. The accepted presenters will be notified in early March 2013 with papers due by April 15, 2013.

Please address questions on this event to:
